This degree prepares students with entry-level skills and knowledge necessary for employment in automotive repair maintenance shops as service or parts personnel. The curriculum is Automotive Service Excellence (ASE) certified and is designed to prepare students for ASE certification. Instruction is provided in a shop equipped with the most up-to-date equipment available. Students entering this program must purchase hand tools and uniforms needed for use in the program. The cost of the required tools can be up to $3,400 depending on brand/source. The required uniforms are approximately $140 and textbooks/lab manuals are approximately $175. A list of required tools can be obtained from counselors or auto instructors.

Program requirements may change over time. Specific degree/graduation requirements are determined by the students' degree audit.

FIRST YEAR

First Semester		Hours
☐ ENG 050	Writing for Industry	3
☐ TEC 048	Applied Shop Computations	3
☐ AUT 048	Introduction to Automotive Technology †	2
☐ AUT 050	Engine Repair †	5
